# Applying to Applied Computing (AC)

## How to apply:

- Complete the application using your UW NET ID at <https://admissions.uwb.edu/apply/>.
- Write a Personal Statement. Review the writing prompt and statement tips at <https://www.uwb.edu/css/admission/personal-statement>.
- Ensure the Office of Admissions has official transcripts for courses taken elsewhere.
- Include a resume. This is optional, but encouraged.
- Current UWB students are encouraged to email the department directly with questions regarding application review and final decision: [cssadv@uw.edu](mailto:cssadv@uw.edu).

## Application deadlines:

QUARTER	APPLICATION OPENS	APPLICATION CLOSES
Autumn	February 1	April 1 & July 1 (See below)
Winter	August 1	October 1
Spring	December 1	February 1

- **For Autumn Admittance:** April 1 if prerequisites are completed by end of Winter Quarter.  
July 1 if prerequisites are completed by end of Spring Quarter.

## Number of in-progress prerequisites at the time of application submission:

- For Autumn and Winter Quarter admittance, completion of all prerequisites is preferred. If any prerequisites are in progress, you may still apply, but please note that such applications will be considered only on a space-available basis.
- For Spring Quarter admittance, all prerequisites must be completed by the end of the previous Autumn Quarter.
- Internal applicants may use courses in which they earned an 'S' grade from spring 2020 through summer 2021 for any prerequisite needed to enter these programs. These courses also will count as the prerequisites for other courses, even if the other course would normally require a minimum numerical grade.

## Competitive applicants:

- Have a competitive GPA, generally a 3.3 or above in most or all prerequisite courses.
- Have overall college-level grades that improve over time.

## Is it helpful to repeat classes?

- Multiple retakes are not encouraged. Grades upon retake need to be substantially higher.

## Are there Computer Science related courses that fulfill general education requirements?

Yes, these courses are not mandatory. However, they enable further CS related exploration. Please pay attention to registration notes and pre-requisites for courses below.

- DIV (CSS 295 – K-12 Computing Education; CSS 205/405 – Women in STEM Seminar)
- VLPA (CSS 385 – Game Development)
- I&S (CSS 110 – Intro to Cybersecurity; CSS 205/405 – Women in STEM Seminar; CSS 211 – Computers & Society; CSS 315 Cybersecurity, Ethics, Policy and Law; CSS 411 Computing Technology & Public Policy)
