Executive Summary of Your Proposal

Please provide a concise overview of the program, activity, or service for which you seek funding.

The captains and players of Recreational Sports clubs seek funding to hold tournaments during Winter and Spring quarter 2012. These tournaments will be specifically for UWB students to play against other UWB students (currently, all sports clubs have to play in leagues in the community and we do not have an opportunity to play against our fellow students). Currently, we have funding from SAF to request money to play in leagues in the community, but we do not have enough funding to support our own UWB tournaments. Our goal is to offer the entire UWB campus an opportunity to play in a sport tournament during Winter and Spring 2012 so that students will be inspired to join Intramural Sports once the Sports Field is up and running in Fall 2012.

Need for this Program/Service

In 150 words or less, please describe the need for this program or service. Please include any data that might support your proposal (e.g., the number of students who have participated in your service or program in the past). If your program is currently funded by SAF, please indicate how you have used the money to help your organization meet its goal(s).

A survey administered during Winter quarter 2011 revealed that more than 90% of the 522 students surveyed said that they would want to or consider joining an intramural team if a sports field was built. We know there is a demand to play sports

against other UWB students (not just playing in leagues against community members). Last academic year the demand to participate in recreational sports teams grew so much that multiple teams in the same sport were being registered.

Also, according to national data from over 95,000 students at 139 colleges and universities across the county, we know that college students do not get enough exercise (National College Health Assessment Spring 2010). This data tells us that only 48.7% of college students meet the recommended amount of exercise. These special sports tournaments will help to promote physical activity and will excite students to continue being active once intramurals begin.

How do you plan to assess the program or service?

How do you plan to track the effects of this program or service?

For example, how would track how the event/program/service went? How would you track how successful it was and what you could change in the future?

The captains will work with Student Life to set-up surveys on HuskySync or to be given out after the tournament that will ask questions about the event. We will also work with Student Life to follow-up with the players to see how many were inspired to join Intramural teams once the Sports Field is built. Based upon the student feedback that is gathered, we will work with Student Life to ensure that the programs that are offered in the future meet the needs of students and students enjoy them.

Estimate number of students that will benefit from your proposed program/service

In 150 words or less, estimate how many currently enrolled students will likely benefit from your proposed service or program. Please estimate the number of other individuals (and indicate their affiliation) that might benefit from this service or program. Finally, please indicate other sources of financial support.

The hope is that all UWB students can benefit in one way or another either by participating in a Rec Sports special event or tournament or by being a spectator. In 2010-11 over 330 students in 21 different sports teams participated in sports leagues

in the community. We hope that the tournaments will raise this years participation even more. We know that from a survey administered during Winter quarter 2011 that more than 90% of the 522 students surveyed said that they would want to or consider joining a sports team if a sports field was built on campus. These tournaments will help us increase student use and excite students about the field.

Benefits to Participants

In 150 words or less, please describe the benefits that participants are likely to gain by attending or participating in this program or service.

The Rec Sports tournaments will provide opportunities for students to participate in organized recreational activities. With the construction of a new field, UW Bothell will begin an Intramural Program that will allow for both competitive and recreational activities to take place on campus but we need to build our population of students interested in playing on campus first this can be done during Winter and Spring quarter 2012 with sport-specific tournaments. The tournaments will make a positive difference in the well-being of the UW Bothell community by promoting healthy, active, and sustainable lifestyle choices. Similarly, participants will walk away having learned skills in how to maintain good physical and mental health and will be inspired to pursue an enhanced quality of life through positive models of recreational and wellness activities. The students who participate will be excited to use the Sports Field once it is built.

Additional Information

Please include any other information you feel is relevant to your request. (There is no character limit on this field.)

These are quotes from different sports captains and players on the importance of having tournaments during Winter and Spring 2012:
Indoor soccer would like to host a tournament in Winter or Spring Quarter open to all students and student clubs on campus in order to gather the collective interest of students in the game of soccer. By hosting a tournament we can gather, recruit, and accommodate large amounts of students who will go on to play in UWB's own league when the sport's field arrives. This event will be hosted in a format similar to the leagues at University of Washington Seattle, where students often form their own teams and play each other. This would be the first time that the Indoor Soccer Team at UWB will

be a hosting a tournament.

-Shahin Mortazavi, Captain of Soccer

This tournament would be an excellent way for students to get involved, and create kinship among their peers. Especially with the new sports field in process this event would greatly increase the interest and awareness of the Volleyball program at UWB for future teams.

- Heather Hislop, Captain of Volleyball

I think it would be great to hold one in the winter.

At UWB there are many students that are interested in flag football. The tournament will let students get to know each other. This will give the students a taste of what is coming once the field is built.

- Jesse Trinh, Captain of Flag Football

I feel having this tournament will draw more students to want to come and play the sport, hence developing an interest in the sport with the highest world wide support. With the tournament being open to only UWB students, students can make teams with their friends and play and learn a sport without having a competition level aspect to prevent them from participating.

- Amit Moolani, Soccer Player

Salary/Wages

Benefits

Benefits paid to regular employees working at least .50 FTE should be calculated at 33.4% of earnings.

Benefits paid to hourly employees should be calculated at 14.9% of earnings.

Honoraria

Facilities Rentals/Set-Ups

If you require facilities rentals/set-ups, please indicate it here.

Indoor Soccer: Woodinville Indoor Soccer Facility for \$100/hour for 4 hours = \$400

Volleyball and Dodgeball: Carol Edwards Center for \$50/hour for 8 hours = \$400

Flag Football: North Creek Field for \$70/hour for 4 hours = \$280

Softball: Flag Football: North Creek Field for \$70/hour for 4 hours = \$280

Telecommunications

Telephone equipment should be estimated at \$35 per handset, per month (this includes only one extension).

Security

Printing & Photocopying

Transportation

Meals and Lodging for Travel

Office Supplies

Food/Refreshments

\$100 for food for 5 different tournaments
(volleyball, dodgeball, soccer, flag football,
softball) = \$500

Equipment Rentals/Purchase

Other

*Please include any other expenses that don't fall
under any of the above categories.*

Trophies and awards to be given out at 5 different
tournaments - \$250

Referee Rentals for Flag Football and Indoor Soccer
for \$60/hour for 8 hours - \$480

Total Amount Requested

\$2590
