

and activities. Financial support can also be derived from the local community, in the form of advertising revenue, such as for the student planners.

3. **In 150 words or less**, please describe the benefits that participants are likely to gain by attending or participating in this program or service.

All enrolled students will potentially benefit from the ASUWB, and might notice their voices get heard by the campus, and maybe even the chancellor. ASUWB helps bring to light important issues and concerns facing the student body.
