

SAF Annual Proposal Form for the 2014- 2015 Academic Year

The SAF Committee will be accepting applications for the annual budgeting cycle from December 6, 2013 until 5:00pm on January 15th, 2014. The intent of the annual operating budget is to support on-going student activities, services, and programs. Services and Activities Fees are defined in RCW 28B.15.041 to mean "fees, other than tuition fees, charged to all students registering at the . . . state universities . . . The legislature also recognizes that Services and Activities Fees are paid by students for the express purpose of funding student activities and programs" of their particular institution. These funds will be available for the 2014 to 2015 academic year.

A member of your group must be available to attend a hearing with the SAF Committee tentatively scheduled for Friday, February 7, 2014 and February 14, 2014. Please include a regularly checked email in the application, as that will be the main form of communication between SAF and the requesting group. The SAF Liaison will contact the requesting group to notify them of a hearing time.

Please ensure that your request is in accordance with SAF Bylaws, which are available at the following website: <http://www.uwb.edu/studentlife/safc/safbylaws>. Please note the SAF Committee will be coordinating with Club Council to develop an efficient funding model.

The Committee will hold an open forum and appeals, tentatively scheduled for on Friday, April 4, 2014. Requesting groups will be notified of a preliminary budget before the open forum and appeals date.

Late applications will not be accepted, except at the discretion of the Committee. Adjustments to the final total requested by any club, group, organization, or department will not be accepted. After a request has been submitted, it may not be reopened for alterations or changes.

Please reference the University of Washington Bothell's 21st Century Initiatives at the following website and, if and where appropriate, please refer to the applicable initiatives: <http://www.uwb.edu/21stcentury>

This proposal is a request to renew the Child Care Assistance Program for qualified students. As the fastest growing university in the state, UW Bothell wants to serve the citizens of Washington by providing increased access to a premier university education. This includes reaching out to populations who have more barriers to overcome and welcoming non-traditional students who have a different set of needs and priorities. Student-parents have different needs than traditional students and in order to support the growing student-parent population, UW Bothell should assist with childcare. The 21st Campus Initiative directly states that the campus wants to address student-life issues, including childcare services. Finally, student-parents help contribute to the diversity on this campus and they offer a unique perspective in the classroom.

[Required] Need for this Program/Service

In 200 words or less, please do the following:

-Describe the need for this program or service.

-If possible, include any data that might support your proposal (i.e. surveys indicating a need for your initiative).

-If you have tracked the success of this program or service in the past, please provide that information here.

Without some form of childcare assistance, many student-parents are simply unable to attend school. Although financial aid helps pay for tuition/fees, books/supplies, room/board, and transportation/personal costs, any financial assistance for childcare will come in the form of a student loan if the student has any remaining loan eligibility. As the student population of UW Bothell continues to grow, it is safe to assume the population of non-traditional students will increase as well. These students will have a need for services that will differ than the traditional college student. Like the traditional college student, non-traditional students contribute to the Services and Activities Fees and should benefit in a manner that would consider their needs as well.

[Required] Estimate number of students that will benefit from your proposed program/service.

In 200 words or less, please do the following:

-Indicate the benefits of your proposed program for students.

-Estimate how many currently enrolled students will likely benefit from your proposed service or program.

-Estimate the number of any other individuals (and indicate their affiliation) that might benefit from this service or program.

Based on the number of students we have served in the past, the number of students that have inquired about the Child Care Assistance Program during the 2013-2014 school year and the amount of funds that we received in prior years I believe that we can serve at least 30 students. For parents who have pre-school aged children, we will pay 40% of childcare costs up to \$1500/quarter. For parents with school aged children, we will pay 20% of childcare costs up to \$750/quarter. The benefits of this program are life-changing for the student who can complete their degree and use this degree to gain a sustainable lifestyle for their families.

[Required] How do you plan to assess the program or service?

How do you plan to track the effects of this program or service?

For example, how would track how the event/program/service went? How would you track how successful it was and what you could change in the future?

At the completion of each quarter, we require verification/receipts and documentation of childcare costs. By continually assessing awards to make sure they were distributed and used appropriately throughout the year, we ensure the integrity, accurateness, and effectiveness of the program. A lot of time and effort goes into the verification of costs and awards for subsequent quarters are not released until verification is approved.
